OBJECTIVE

To obtain a position as front end developer/digital designer at a business where I can learn and grow in my field and make a positive impact through my work.

EXPERIENCE

CAMPBELL EWALD April 2013 - December 2015

Front End Web Developer

My role included taking design concepts and creating user-focused, responsive web experiences, Collaborating with designers, developers, and account teams to create unique user experiences, taking designs and creating responsive email campaigns that work beautifully with every email client, implementing a new email production process to adapt to the ever changing world of responsive design.

Clients: USAA, OnStar, Owens Corning, The District Detroit, Edward Jones, Kaiser Permanente

ART VAN FURNITURE Jan 2012 - March 2013

Web Graphics Designer

My role was to design and develop engaging HTML emails, test and debug emails for all email clients, create banner ads for external sites, implement better online marketing strategies to generate more web traffic to the site during sales, microsite creation and maintenance.

FREELANCE WEB DEVELOPMENT Jan 2009 - Present

Recent Projects:

liferemodeled.com - brand refresh, new website design and development for Non-Profit Org. Life Remodeled.

bruceandrewsdesign.com - website design and development
