OBJECTIVE

To obtain a position as front end developer/digital designer at a business where I can learn and grow in my field and make a positive impact through my work.

EXPERIENCE

COMMONWEALTH//McCANN July 2016 - current
Front End Web Developer - Contracted through Aquent/Vitamin Talent
Role includes building a digital brand style guide for our client Chevrolet. Using the Foundation framework as well as gulp, Sass, and Javascript to create a robust, interactive guide for our designers.
Client: Chevrolet

ORGANIC Jan 2016 - May 2016
Front End Web Developer - Contracted through Aquent/Vitamin Talent
Role included website updates for Depend and Poise brands. Leveraging JavaScript, jquery, and MVC(.NET) architecture to make sites more interactive as well as producing stand alone microsites. Agile and SCRUM methodologies used in the build process.
Client: Kimberly Clark

CAMPBELL EWALD April 2013 - December 2015
Front End Web Developer
My role included taking design concepts and creating user-focused, responsive web experiences, taking designs and creating responsive email campaigns that work beautifully with every email client, implementing a new email production process to adapt to the ever changing world of responsive design.
Clients: USAA, OnStar, Owens Corning, The District Detroit, Edward Jones, Kaiser Permanente

ART VAN FURNITURE Jan 2012 - March 3013
Web Graphics Designer
My role was to design and develop engaging HTML emails, test and debug emails for all email clients, create banner ads for external sites, implement better online marketing strategies to generate more web traffic to the site during sales, microsite creation and maintenance.

EDUCATION

SCHOOLCRAFT COMMUNITY COLLEGE 2009 - 2011
Web design/Graphic design.
